## Upper El Math Update

Our 11 AM math class for grades 3-5 is now **Adventures in Math!** Students of all math abilities can join us as we use games and other fun methods to learn math concepts. This will allow you to use whichever math curriculum works best for your family at home.

## New Upper El Class

We're changing our 1:35 PM math class to **PE!** We know many of our 3rd-5th grade parents would love for their students to have more physical activity time, so we're excited to offer this new opportunity for movement and fun!

## MS/HS Literature

These classes will now be called **Writing Through Literature** and will include a writing component to help students develop both their literary knowledge and writing skills. This also means this class can count as a writing credit.
